**PANTONE
11C**

*Reproduction of colors are not always "what you see is what you get" because colors printed and the color produced physically can, and most likely will, vary. This is because different devices have different color "languages" and will output color differently. To get a better result it is important to choose your colors CAREFULLY. We cannot be held responsible for colors that are off a few shades due to the vast complexities of media differences. Choose a Pantone or Sherwin Williams colors to get the best result, or contact us and we will happily send you a sample.
